Notes ²

The information found in this document comes from the original contract located in the archives of Casavant Frères in Saint-Hyacinthe, Québec.

This organ was rebuilt with electro-pneumatic action and enlarged in 1960 as Opus 2565.

¹ The term "Registers" refers to the total number of speaking stops including duplexed and extended stops but excluding couplers, tremulants and controls. "Stops" refers to the total number of independent or straight stops excluding duplexed and extended stops as well as couplers and controls.

² The information contained herein was researched by Stanley R. Scheer, Vice President Emeritus-Casavant Frères – May 31, 2007
